## WORK EXPERIENCE

**Senior Software Developer**
**AMERICAN TOWER CORPORATION, Gurugram**
Sep 2019 - Feb 2023
Proven and dynamic .NET Developer at ATC Company with a focus on .NET Core, MVC Core, JavaScript, SQL Server, Okta, Jenkins, and Hangfire. Over a tenure of 3 years and 6 months, I spearheaded the development of robust, full-stack solutions across diverse projects. My commitment to excellence translated into successful project deliveries, where I consistently met or exceeded client expectations.
**Projects:**

- **Poles and Towers**
  - .Net Core, SQL Server, JavaScript, C++ API
  - Worked as the developer and then Project Lead in later enhancement phase
- **SR Loader Global**
  - .Net Core, SQL Server, JavaScript, Hangfire
  - Worked as the developer and then as Project Lead if any enhancement is required
- **Web Accesso Multi**
  - ASP.Net, SQL Server
  - Worked as the developer and then as Project Lead if any enhancement is required
- **Web Accesso Mexico**
  - ASP.Net, SQL Server
  - Worked as the developer and then as Project Lead if any enhancement is required
- **Global Equipment Catalog**
  - ASP.Net MVC, SQL Server
  - Worked as the developer and then as Project Lead if any enhancement is required

**Software Developer**
**GENPACT, Noida**
Mar 2023 – Present
Working as a Full Stack .Net developer. Develop, unit tested, and debugged system for the purpose of conversions and development projects. Investigate, analyze and document solutions and work grounds for production Incidents.

- Create an automated application to reduce workload and increase working efficiency.
- **Project:** Cora
  - ASP.Net, JavaScript, GIT and SQL Server
